Elyasheev Leibtag

Postdoctoral researcher in mathematics, Ghent University

Department of Mathematics, Ghent University
Krijgslaan 281 – S25, 9000 Gent, Belgium

elyasheevleibtag.github.io
sleibtag@gmail.com

Research interests: geometry and dynamics of infinite groups; Lie and Kac–Moody groups and buildings; irrationality and Diophantine approximation; symbolic computation.

Employment

Ghent University — September 2025 – present
Postdoctoral researcher, hosted by Prof. Tom De Medts — *Ghent, Belgium*

Technion – Israel Institute of Technology — July 2024 – August 2025
Postdoctoral fellow, Ramanujan Machine group of Prof. Ido Kaminer — *Haifa, Israel*

Education

Weizmann Institute of Science — May 2019 – May 2024
Ph.D. in Mathematics, advised by Prof. Uri Bader — *Rehovot, Israel*

Weizmann Institute of Science — Nov 2016 – May 2019
M.Sc. in Mathematics — *Rehovot, Israel*

Hebrew University of Jerusalem — Nov 2013 – July 2016
B.Sc. in Mathematics, with minor in Computer Science — *Jerusalem, Israel*

Awards

Dean's Prize for outstanding Ph.D. students — 2023
Feinberg Graduate School, Weizmann Institute of Science

Papers and preprints

New Directions in Irrationality — 2026
with H. Barkan, R. Kalisch, S. Weinbaum, M. Shalyt, I. Kaminer

An Infinite Family of Apéry-like Recurrences for Euler's Constant — 2026
with R. Kalisch, T. Monderer, S. Weinbaum, M. Shalyt, I. Kaminer

Selflessness, MIF and opposition in groups acting on exotic buildings — 2026
with C. Le Bars, I. Vigdorovich

The Ramanujan Challenge for AI — 2026
Ramanujan Machine Group (contributor)

From Euler to AI: Unifying Formulas for Mathematical Constants — 2025
with T. Raz, M. Shalyt, R. Kalisch, S. Weinbaum, Y. Hadad, I. Kaminer. NeurIPS 2025

On Conservative Matrix Fields: Continuous Asymptotics and Arithmetic — 2025
with S. Weinbaum, R. Kalisch, M. Shalyt, I. Kaminer

Semigroup Compactifications of Algebraic Groups — 2024
Single author

Homomorphic Images of Algebraic Groups — 2023
with U. Bader. Journal of Algebra (special volume in honor of Jacques Tits)

Talks

Research talks

Action Now workshop October 2026
Hebrew University of Jerusalem, Israel

UGent–KULAK seminar September 2026
Ghent University, Belgium

Algebra and Group Theory Seminar February 2026
Ghent University, Belgium

Geometry and Dynamics Seminar February 2026
University of Lille, France

Algebra and Group Theory Seminar December 2025
Ghent University, Belgium

Group Theory Seminar December 2025
UCLouvain, Louvain-la-Neuve, Belgium

East Flanders Algebra Day October 2025
Ghent University, Belgium

UGent–KULAK seminar September 2025
Ghent University, Belgium

Buildings conference September 2025
UCLouvain, Belgium

Algebra and Number Theory Seminar June 2024
Bar-Ilan University, Israel

Group Theory and Dynamics Seminar November 2023
University of California San Diego, USA

Geometry, Topology and Dynamics Seminar October 2023
University of Illinois Chicago, USA

Oberseminar on Algebraic Topology February 2023
University of Göttingen, Germany

Geometry and Topology Seminar April 2022
Technion – Israel Institute of Technology, Israel

Annual Meeting of the Israel Mathematical Union September 2020
Online

Midrasha on Groups 2019 – 2022
Weizmann Institute of Science, Israel

Posters

Research Institute for Symbolic Computation (RISC) July 2026
Johannes Kepler University Linz, Austria

Buildings conference 2026
Bielefeld University, Germany

Centre International de Rencontres Mathématiques (CIRM) November 2024
Marseille, France

Groups and Algebras in Bicocca for Young Algebraists June 2022
University of Milano–Bicocca, Italy

Expository talks

Pi Day lecture March 2025
Ben-Gurion University of the Negev, Israel

GDRT Seminar October 2019
Technion – Israel Institute of Technology, Israel

Arbeitsgemeinschaft: Zimmer's Conjecture October 2019
Oberwolfach, Germany

Midrasha on Groups 2018 – 2023
Weizmann Institute of Science, Israel

Teaching

Lecturer

Advanced Topics in Group Theory Spring 2026
Ghent University

Teaching assistant

Calculus 1 Fall 2019 – 2024
Hebrew University of Jerusalem

Calculus 2 Spring 2019 – 2023
Hebrew University of Jerusalem

Dynamical Manifestations of Semisimplicity July 2022
Mini-course at the conference Group Actions, Geometry, and Dynamics

Complex Analysis Spring 2020
Ben-Gurion University of the Negev

Introduction to Algebraic Groups Winter 2020
Weizmann Institute of Science

Introduction to Algebraic Geometry Winter 2019
Weizmann Institute of Science

Commutative Algebra Fall 2018
Weizmann Institute of Science

Algebra for Teachers Spring 2018
Weizmann Institute of Science

Mentoring

Bachelor's project mentor, Ghent University 2026
Topic: Markov problems and Monster groups.

Project mentor, "Psagot" program, Technion 2024
Topic: Experimental mathematics.

Project mentor, Ulpana De-Shalit Summer 2019
Topic: The Banach–Tarski paradox.

Outreach and organization

The Walkshop Workshop 2019 – 2024
Founder and organizer of an annual three-day mathematics-in-nature hike.

Co-organizer of the Midrasha 2019 – 2021
Group theory and related topics seminar, Weizmann Institute of Science

Personal

Languages: English, Hebrew
Programming: Sage, Python, Mathematica, LaTeX
